A Place for Life: A special astronomy exhibit of Understanding Evolution Biology and paleontology provide an increasingly detailed picture of the evolution of life. Natural selection has resulted in a huge range of organisms living in a multitude of environments, and the geological record shows us how the Earth as a whole has changed over time.

### **Understanding Evolution**

The "Evolution Lab" is an online natural selection simulation. It works well with students working independently at computers or using a projector to show it to the class. Here is a worksheet to go with the simulation. In "The Evolution Game" you're a small primate in the Eocene forests of 50 million years ago, but the world is changing.
