Engineering Software as a Service · GitHub

Software as a service (SaaS / *s æ s* /) is a software licensing and delivery model in which software is licensed on a subscription basis and is centrally hosted. It is sometimes referred to as "on-demand software", and was formerly referred to as "software plus services" by Microsoft. SaaS is typically accessed by users using a thin client, e.g. via a web browser.

Software as a service - Wikipedia

The highly competitive software product engineering service industry continues to witness a move to utility-based software delivery through Software as a Service (SaaS and Web 2.0) technologies. The increasing pace of innovation has shortened software products' lifecycles.
