A Formula Sheet for Financial Economics William Benedict McCartney April 2012 Abstract This document is meant to be used solely as a formula sheet. It contains very little in the way of explanation and is not meant to be used as a substitute for a financial economics text. It is aimed specifically at

A Formula Sheet for Financial Economics - people.duke.edu

Economics is the Study of Money. Economics is the study of how money behaves over time. You may come across situations where you need to analyze cash flow over a period of time, see how much an item will depreciate, or analyze multiple options to see which choice would be the most economically feasible.
