How to Make Stirling Engine - Single Cylinder Tomato Can (Homemade/DIY)

How to Make a Coke Can Stirling Engine. By mid-19th century his engines were powering major industries including foundries. However, his engine, as well as most hot air engines, was more suited to low-power applications. His desire to create a safer alternative to the oft-exploding steam engines was defeated by the need for more power to run growing industries.

How to Make a Coke Can Stirling Engine | HowStuffWorks

Two-Can Stirling Engine. One can contains hot water and the other cold. The temperature difference between the two sides causes the engine to run. The difference in the hot and cold side temperatures creates variations in air pressure and volume inside the engine. These pressure differences rotate a system of inertial weights and mechanical linkages,...
