Is a physical connection between the ECM and ELD required in order to establish integral synchronization with the engine? Previous Next The ECM and ELD may be connected by serial or Control Area Network communication protocols.

Is a physical connection between ECM and ELD required in ...

If you stop to think, the engine in the fire apparatus can "talk" to the transmission. The engine can also "talk" to pump controls. So, is it impractical to think a fire truck would not be able to talk to other fire trucks or passenger cars? Many of you may have heard of vehicle-to-vehicle communication, more commonly known as V2V.
