Whitman was retained to complete electrical design engineering drawings for canopy structures placed at the new Whole Foods in Brooklyn, NY. Whitman provided the design and construction support for the project. The solar carports are part of the green initiative that Whole Foods employs at this facility. Key Words

Carport Solar Design - Whole Foods, Brooklyn, NY - Whitman ...

A carport is a covered structure made from steel or aluminum and built to protect vehicles from the outdoors. Carports are composed of a roof, posts, and beam, and they can be attached to the home or not. Due to the lack of four walls there is less protection for the vehicles but offers ventilation that a garage does not.
