The Engineering Physics major interweaves classical and modern physics, chemistry, and mathematics with engineering applications. Chief among the attractions of the major is its flexibility; students have the ability to take diverse engineering, math, and science classes based on individual research goals.

Notes \* A minimum of 120 units is required for graduation. \*\*A fifth semester is granted to transfer student admits who are missing at least three lower division technical courses, of at least 3 units each, for the Engineering Physics major when they matriculate to UC Berkeley.

### **Engineering Physics | Berkeley Engineering**

Engineering physics or engineering science refers to the study of the combined disciplines of physics, mathematics and engineering, particularly computer, nuclear, electrical, electronic, materials or mechanical engineering. By focusing on the scientific method as a rigorous basis, it seeks ways to apply, design, and develop new solutions in engineering.
