Hi I converted to the Weber early last year and am happy with it. The difference is in the mid to high torque range and that is where I think you need it however if you have already widened the flange then why not go with it and if you feel you are losing at low torque you can always replace the inlet manifold I don't think they will be expensive as they tend to last and are not a part in demand.

2.0 petrol 170B XN1T upgrade - Talbot Owners Club

An engine swap is the process of removing a car's original engine and replacing it with another.. This is done either because of failure, or to install a different engine, usually one that is more modern, this may make it more powerful and or efficient.
