252 CHAPTER 9. AUCTIONS Unknown Values. Thus far we've been discussing how sellers and buyers might interact when everyone knows each other's true values for the item. Beginning in the next section, we'll see how auctions come into play when the participants do not know each other's values.

Chapter 9 Auctions - Cornell University

(5) Network Dynamics: Population Models . Networks are powerful conduits for the flow of information, opinions, beliefs, innovations, and technologies. We begin by considering how these processes operate at the level of populations, when we can't necessarily observe the network itself, but only its effects on aggregate behavior.
