Harley Davidson Evolution Engine Problems ...

2 Another problem area on several years (during the 80's I believe) is the rear engine mount. The pinion side case can crack at the rear engine mount. This is specifically an issue on the cases that have a 90 degree corner machined in the case where the RED arrow point. Note on this case there is a 45 degree chamfer and not a 90 degree angle.

EVO case issues, what to look for : V-Twin Forum: Harley ...

The Evolution (Evo) engine is a V-twin engine that has been manufactured by Harley-Davidson since 1984 for a variety of different motorcycle models. The engine design is often credited with saving Harley-Davidson from bankruptcy after the management buyout and subsequent reorganization that the company went through during the early 1980s.

Flying the Hangar 9 Piper Cub at Ft Bend RC Club in Rosenberg, Texas October, 20, 2007. The installed Evolution motor started giving me problems after the 3rd gallon of fuel... Get a Saito, you ...

Why Not to Buy an Evolution Engine

Had an '84 and an '87. Sold the '84 at 33k, never a problem. The '87 developed a crank shaft/ main seal leak that could not be fixed. Pushed oil from the engine into the primary. Replaced the seal twice, but couldn't fix it. Was told there were problems with the cases for that year.

Best or worse years for Evo : V-Twin Forum: Harley ...

The Evolution engine (popularly known as Evo) is an air-cooled, 45-degree, V-twin engine manufactured from 1984 by Harley-Davidson for the company's motorcycles. It was made in the 1,340 cc (82 cu in) displacement for Harley-Davidson Big V-twins bikes, replacing the Shovelhead engine until 2000 when the last EVO was placed in a production factory custom FXR4 (FXR2 and FXR3 were the first CVOs).

Harley-Davidson Evolution engine - Wikipedia

EVOLUTION ENGINES by: Anonymous that's the only thing about the preset low and high side needles I see that is a problem with them. Take the stops out so that you can check to make sure they are set in the correct spot. I think evolution have good engines, but these stops can cause problems because there have been several set wrong from factory...

Evolution engine dies when running full throttle

The Harley-Davidson Evolution V-twin was introduced in 1983. Here's a look at the technical elements and developments that allowed the 80-cu.-in. engine to save the company.
