### How to fix your jetta speedo sensor

I've been having troubles with my 2000 volkswagen jetta VR6. The check engine light came on and i had AutoZone scan it. They said it was a speed sensor with no power. I was told to have someone with a VAGCOM device scan it, which i did last night. They said it was a G68 sensor, could be unplugged or may need to be replaced. We drove VERY rough roads this weekend, its VERY possible it

just ...

But if I totally disconnect the sensor, the speed shown on the dash stays at 0km/s (the marker doesn't move) If I connect the sensor, speed shows. RPMs shows ok everytime on the dash, with or without the sensor. I've been told that there are actually 2 sensors, the vehicle speed sensor and the transmission sensor, and the one on question is the VSS.
