Interactive Physiology 3 \*\* Now is a good time to go to quiz questions 1-3: • Click the Quiz button on the left side of the screen. • Work through questions 1-3. • After answering question 3, click the Back to Topic button on the left side of the screen.

**Pulmonary Ventilation - interactivephysiology.com**

The respiratory system modifies air by cleansing, warming and humidifying it. When carbon dioxide combines with water an acid (known as carbonic acid) is formed in the following manner:  $\text{CO}_2 + \text{H}_2\text{O} \rightleftharpoons \text{H}_2\text{CO}_3$  (carbonic acid). An increased amount of carbonic acid blown out by the lungs can lead to an alkaline condition within the ...
