Lathe Machine Questions And Answers

Engine Machining - posted in Problems, Questions and Technical: Hopefully this thread is not opening up a can of worms. I know many of you guys have your own way of doing or having done these tasks and I've of little doubt that what you guys do works for you. I also know that there are some Professional Engine Builders here who may chip in with their 2c (2p?) worth.

Engine Machining - Problems, Questions and Technical - The ...

Most cars have engines that distinguish them from all the others. There are certain components of an engine that are uniform where as others are totally different. Below is a comprehensive engine performance assessment quiz that...

Top Engine Quizzes, Trivia, Questions & Answers - ProProfs

Because an automotive machinist is focused on engines, you want to make sure you're receiving an education that focuses on engines too. Otherwise, if you enroll in a program for certification as an auto mechanic, you'll only gain passing knowledge of an engine and not the in-depth experience you'll need to become an auto machinist.

The Differences Between an Automotive Machinist and a Mechanic

The largest engine I will do is an outboard V-6. I don't normally do automobile engines because of the time it takes to set up, I can't charge enough for my time to be competitive with automotive machine shops that have a specialized boring machine. The largest engine I have bored was 5 1/4" and the longest was 6".

Machining small engines - The Home Machinist!

These questions here tell me that there is two groups of people vs a full fledged professional machine shop. Reason I ask some of these things is because alot of people work from home and could surely fit in this group (I myself would be one of them). ... DIY Engine Machining. March 13th, 2013, 01:34 PM.
