Endeca and Solr are the best in class enterprise search engines, widely used, standard-ed, proven and highly scalable .This article describes both search engines capabilities and limitations , which are the key factors to decide best fit for your business needs.

E-Commerce: Endeca Vs Solr

Endeca focused on this e-commerce market first, and developed the MDEX engine to support this, marketing it as a column-store, rapid-development query engine that allows “faceted searches” across lots of different, “jagged” data sets (i.e. data sets that don’t have the same data model, but with some commonality between them).

A Quick Start Guide For Oracle Endeca Commerce Tutorial

Hi Everyone, I am working on Endeca product dimensional search for auto suggestions on search. I was able to implement only category level dimensional search based on Endeca MDEX Engine Basic Development Guide. But category level dimensional search not providing product level dimensional search.
