The RB25DET engine manages a 250 hp using a factory T3 turbo setup. The engine is optimized for its 4WD chassis and uses a five-speed automatic transmission. The 2.5-liter engine is built using a cast iron block. The cams are belt driven as opposed to a chain. The single-cam turbocharged engine is named as the RB20DET and produces over 210 hp.

RB25DET Engine | eBay

Once a customers vehicle has a Nistune board installed, the customer can drive in, you do the tune, flash in the change and they drive out. Your laptop simply plugs into the ECU directly via USB (for early model vehicles) or into the vehicle diagnostic port (for later model vehicles) using a Nissan Consult cable.

Nistune products

Driving with a misfiring engine may not be dangerous right away, but over time it will wear on your engine and you can potentially damage the vehicle. If you lose power while driving on a busy road, this is a safety hazard. If you notice any of the signs or symptoms of a misfiring engine, get them checked out by a professional as soon as possible.
