Environmental Engineering Online Lectures, Notes, Solutions, Class Notes Environment: The physical and biotic habitat which surrounds us; that which can be seen, heard, touched, smelled and tasted. Environmental Science: An integrative applied science that draws upon nearly all of the natural sciences to address environmental quality and health issues.

**Environmental Engineering Online Lectures, Notes ...**

Environmental benefit versus economic burden (trade-off). Role of the public sector: In other areas of engineering, a need creates a market, and the market drives technology development. In environmental engineering, it starts with a problem, which drives regulations, regulations create the market, and the market drives the technology.
