Transparency is essential at all levels in the hierarchy to avoid conflicts and unnecessary disagreements. For this purpose organizations have introduced a policy named as - Open Door Policy.

Open Door Policy - Meaning and its Advantages

Responsibility for the Holocaust is the subject of an ongoing historical debate that has spanned several decades. The debate about the origins of the Holocaust is known as functionalism versus intentionalism. Intentionalists such as Lucy Dawidowicz argue that Adolf Hitler planned the extermination of the Jewish people as early as 1918, and that he personally oversaw its execution.

Data envelopment analysis (DEA) is a nonparametric method in operations research and economics for the estimation of production frontiers [clarification needed]. It is used to empirically measure productive efficiency of decision making units (DMUs). Although DEA has a strong link to production theory in economics, the tool is also used for benchmarking in operations management, where a set of ...
