This is hot topic for me too, because I want to buy turbo kit for my r18a2 engine, but the main question remains: Why nobody respond to this topic with some real information about a1 and a2 diferencies? What is the real deal about a1 and a2 engines? Do they in Japan really don't like us in europe, or what?

**Tech i-VTEC - R18A1 or R18A2?? - Civinfo**

There are many things wrong with what you are doing and what you have self diagnosed. First, 0w-30 and 5w-30 are the same weight oil. Modifiers in the oil cause it to flow easier with the 0w than with the 5w when the engine is cold. If anything, you are hurting your engine by putting the 5w oil, than by using the 0w, because most engine wear occurs at startup of the engine.
