well insted of payin 4 the nice insurance of an m3 i've been looking into "simply" taking an s54 engine and putting it into my e46. but is there anyone on here that has ACTUALLY done it? well any engine not just an m3. possibly a v8? i mean u always see these engine swaps on simple e30's but never on e46

**has anyone acomplished an e46 engine swap on here ...**

I did a supercharger, engine swap and manual trans all for about 6k in total. You can find engine, transmission and rear end swaps from a E46 M3 in total for about 6-8k and do the work yourself. Or you can do what I did. Put in another engine and when you do put new piston rings in and get the engine machines so it's all nice and new.

Generally speaking, the best engines to swap into the E30 are the E36 M3 engines, S50B30 and S52B32. Both produce enough power to make the swap worthwhile. The S54 from the E46 M3 is rated at 330 hp. It's size, light weight, and power make it an attractive E30 swap candidate. However, it is not an easy engine to install.

We recently completed an S54 swap into an E46 325i sedan for a customer. The goal was to create a car that looked like a stock 3 series from the outside but had all the performance of an M3 and I believe we hit that goal. From what I've seen most of the swaps have been done with just the engine in mind.

Fueling. Fueling for the S54 swap is very similar to any other 24V swap. The main difference between an M50/M52/S50/S52 is that the S54 runs on a 5 bar fuel pump as opposed to a 3.5 bar system in the traditional 24V. The Walbro 255lph is an inexpensive drop in style pump that works well with the E30 hanger.
