Springboard Engineering

Engineering Wind. Students will work through the engineering process while designing and testing wind turbine blades. Students will then use their tested turbine to investigate what happens to the voltage of electricity as it is transmitted along an electrical wire.

Engineers in the Classroom | National Geographic Society

This programme will help engineers, scientists and technicians from traditional disciplines to cross into the new realms of engineering which are often hi-tech, hi-precision and highly regulated. The Irish Medtech Springboard accredited training is awarded by University of Limerick and DIT/Ibec to impart the requisite skills.
