Katie Kilcoyne summarises the experimental evaluation of three, commercially available, 3D printers, each employing a different mode of printing, with reference to printing of simple open, simple enclosed and complex enclosed microfluidic channels, for microfluidic (MF) devices for potential lab-on-a-chip (LOC) and/or continuous pharma manufacturing applications

Experimental music is a general label for any music that pushes existing boundaries and genre definitions (Anon. & n.d.(c)). Experimental compositional practice is defined broadly by exploratory sensibilities radically opposed to, and questioning of, institutionalized compositional, performing, and aesthetic conventions in music (). Elements of experimental music include indeterminate music, in ...

Charles S. Peirce randomly assigned volunteers to a blinded, repeated-measures design to evaluate their ability to discriminate weights. Peirce's experiment inspired other researchers in psychology and education, which developed a research tradition of randomized experiments in laboratories and specialized textbooks in the 1800s.

Where mass transfer limits the rate at which lipids transfer, confined impinging jet mixers (CIJMs) show promise. These devices drive two or more turbulent jets coaxially into a confined mixing chamber (see Fig. 1) (Johnson and Prud'homme, 2003, Sultan et al., 2013). Although microscale devices, they do not suffer from the slow laminar mixing of microfluidics, because rapid turbulent energy ...

Netmiko and what constitutes done By Kirk Byers. Screen-scraping suffers from two fundamental problems—the first is that screen-scraping returns unstructured data (i.e. a big, block of text) and the second is that the communication channel has no good notion of being done.

Choosing a proper cooling method for a lithium-ion (Li-ion) battery pack for electric drive vehicles (EDVs) and making an optimal cooling control strategy to keep the temperature at a optimal range of 15 °C to 35 °C is essential to increasing safety, extending the pack service life, and reducing costs.
