Any engineering drawing should show everything: a complete understanding of the object should be possible from the drawing. If the isometric drawing can show all details and all dimensions on one drawing, it is ideal.

Engineering Drawing and Sketching - University of Minnesota

2D drafting and drawing is the process of creating and editing technical drawings, as well as annotating designs. Drafters use computer-aided design (CAD) software to develop floor plans, building permit drawings, building inspection plans, and landscaping layouts. CAD software for 2D drafting can be used to draft designs more quickly and with greater precision, without using stencils and ...
